

## RETRACTABLE STATIC EARTHING

**MODEL: SEL-L7**

This heavy-duty stainless-steel earthing clamp is primarily used for earthing metallic drums, IBC's, production vessels and road tankers. The clamp consists of twin tungsten carbide teeth which allows for effective penetration of paint and contamination.

### SPECIFICATION

Electrical Resistance	<0.5 ohm
Cable Size	2.5 sq.mm (Cable is screened SS/Copper wire with outer PU coated jacket and centre sheath of Teflon coated MS wire)
Cable length	7 mtr
Clamp Material	SS-304 with SS TIP SS-304 or tungsten TIP
Clamp current rating	150A (As clamp is suitable for static grounding)

### APPLICATION INDUSTRIES

Petro-Chemical	Plastic	Rubber
Chemical	General Engineering	Paper
Fertilizer	Automobile	Hotels
Cement	Textile	Paints
Sugar	Tea	Dye Intermediate

### APPLICATIONS

Earthing Drums	IBCs	Production vessels
Road tankers	Earthing Buckets	Containers
Plant equipment
